Panzerfaust 3

How to install ?

Drag 'n drop in:

Grand Theft Auto V\mods\update\x64\dlcpacks\patchday8ng\dlc.rpf\x64\models\cdimages\weapons.rpf\

If you want correct alignment in first person you must edit 'weapons.meta' located in:

Grand Theft Auto V\mods\update\update.rpf\common\data\ai\

1) (Extract it and open it with either notepad or notepad++)

2) Once opened search for "w_lr_rpg" with no quotations

3) then search for "

4) Once you do that save the file and simply drag 'n drop it back to where you extracted it from
